## INTERNATIONAL SEARCH REPORT

## CITE NO. MC International application No.

PCT/US98/10375

| A. CLASSIFICATION OF SUBJECT MATTER  |   |   |                                    |
|--|---|---|------------------------------------|
| IPC(6) :A61K 31/34, 31/38, 31/40   |   |   |                                    |
| US CL :514/423, 445, 475<br>According to International Patent Classification (IPC) or to both national classification and IPC  |   |   |                                    |
| B. FIELDS SEARCHED   |   |   |                                    |
| Minimum documentation searched (classification system followed by classification symbols)  |   |   |                                    |
| U.S. : 514/423, 445, 475   |   |   |                                    |
|  |   |   |                                    |
| Documentation searched other than minimum documentation to the extent that such documents are included in the fields searched  |   |   |                                    |
| Electronic data base consulted during the international search (name of data base and, where practicable, search terms used)   |   |   |                                    |
| STN search terms: formulae within table 3 and arthritis, inflammation.   |   |   |                                    |
| C. DOCUMENTS CONSIDERED TO BE RELEVANT   |   |   |                                    |
| Category*  | Citation of document, with indication, where appr   | opriate; of the relevant passages   | Relevant to claim No.              |
|  |   |   |                                    |
| Y  | TARZIA, G. et al. Synthesis and antiinflammatory properties of 1-16<br>some pyrrolo(1H,3H)[3,4]pyrimidin-2-ones and pyrrolo(1H,3H)[3,4- |   |                                    |
| 1  |   |   |                                    |
|  | d nyrimidin-2-ones and pyrrolo(1H,6H)[3,4-d]pyrimidin-2-ones.   |   |                                    |
|  | Chemical Abstracts. 27 August 1979, Abstract No. 74558p; page   |   |                                    |
|  | 594.  |   |                                    |
